

BLUE BIRD

ALL-ELECTRIC

BLUE BIRD®

Blue Bird was first to market electric school buses in 1994. With advances in battery technology, Blue Bird can now offer efficient and affordable electric-powered buses. The reliable drivetrain systems offered in our Blue Bird Vision and All American RE buses follow the long-standing tradition of Blue Bird quality.

There are **hundreds of thousands** in grant incentives for electric school buses, which could help to make purchase acquisition more affordable.

Blue Bird's electric buses produce **Zero Emissions, which means cleaner air for our children.**

Our Electric buses have excellent **temperature control**, delivering great performance in many weather conditions.

Go Further with **up to 120 miles** in a single charge. Buses can be charged overnight, obtaining a **full charge in 6-8 hours.**

Low Maintenance Costs - less parts means less maintenance. Because there is no need for engine oil changes, and **no transmission or engine to maintain.** Blue Bird's electric buses have a lower cost of maintenance than traditional, combustion-fueled buses.

All American RE Electric
